

Heavy Duty Cleaner & Degreaser

NasaClean®

NasaClean is an ecological and biodegradable degreasing detergent based on our own formula, for cleaning any kind of surface, specially formulated for areas where Nasacoat coatings are applied.

It is applied soaking a cloth, a staple cotton or a sponge with NasaClean diluted in water and rubbing on the part to be cleaned. Do not use abrasive materials, as they may affect the surface of the coating.

NasaClean comes in concentrated form.

NasaClean can be used for regular cleaning of floors and walls. In this case, dissolve 100 mL of NasaClean per liter of water.

To remove stains of oil, grease, vegetable or animal waste and other fouling agent that does not have strong adhesion, dilute 1 part of NasaClean in 4 parts of water.

To remove substances that have a stronger adhesion to the coating, as blood, iodine and similar, we suggest to dilute NasaClean 50% – 50% in water or, in case of most tenacious dirt, NasaClean can be used pure.

NasaClean resists :

Extreme Weather – Salinity and Humidity of Marine Environment
Pollution - Animal Waste - Bird Drops - Permanent Puddles - Inorganic acids

All Nasacoat Coatings are 100% Acrylic - 100% Water Based
Non Toxic - 100% Ecological = Environmental Friendly and Sustainable
as well as

100% Free of cheap monomers : Styrene, Vinyl and VEOVA
100% free of poisoning : Ammonia, Lead, Heavy Metals, Organic Vapors Emission = 0 VOC

Sustainable Materials for a Better and Healthy Future

Heavy Duty Cleaner & Degreaser

NasaClean®

Technical Characteristics

Dilution in water	100 to 500 ml per liter	Viscosity	< 400 cps
Density	1.02 g / ml	pH	7.0 – 8.0
Solids	9.3%	Maximum Storing Time	12 months
		Maximum Storage Temperature	35°
		Available in containers of 1, 4, 19 and 200 Liters	

Exclusive Distributor in Mexico :

Nasacoat de México SA de CV Av. López Mateos # 2077 - Plaza del Ángel - Local 9 - Nivel 1,
